Materialize
React
Angular

Back End

Node
Express
Passport
Python
Django
MySQL
Sequelize
MongoDB
Mongoose

Misc

Wordpress
Photoshop
VS Code
Sublime
Emmet

EXAMPLE PROJECTS

Project: [EventPlan](#) | Backend (Database, API, and Authentication) | [Github](#)

Description: EventPlan is a user based event organization app, which allows you to select a range of dates for a potential event, with the one that gets the most votes from attendees becoming the scheduled date. User authentication is handled by either Google via OAuth or email and password strategy. Both strategies use Passport middleware.

Technologies/Frameworks Used: React, Node, Express, Passport, MongoDB, Mongoose

Project: [Project Three-Sixty](#) | Backend (Routing and Authentication) | [Github](#)

Description: Project Three-Sixty is a simple job costing application, which allows for user input of job details and displays graphic reports. User authentication is handled via Passport middleware.

Technologies/Frameworks: Node, Express, Passport, MySQL, Sequelize

Project: [Where's the Show](#) | Backend (JavaScript and AJAX calls) | [Github](#)

Description: Where's the Show allows a user to quickly call up a list of concerts that are taking place in their area (via geolocation and Google Places) over the next few days and gives a link to ticket purchasing and a related YouTube video.

Technologies/Frameworks: Materialize, JavaScript, AJAX, Moment.js, Ticketmaster and Google APIs

WORK EXPERIENCE

TradeNet Publishing **Director, Sales and Customer Service** **2016 - 2018**

- Trained and supervised a staff of 15 Customer Service professionals
- Oversaw all department functions, implementing adjustments based on performance and customer feedback

Allen Press **Director of Business Development** **2012 - 2016**

- Identified client needs and determined best fit of services to meet them
- Designed sales strategy for commercial print territory, maintaining year over year growth despite market decline

Allen Press **Account Manager** **2006 - 2012**

- Oversaw production of over 150 print projects annually, coordinating inter-departmental production efforts to ensure on time delivery
- Acted as primary point of contact for over 65 client accounts
